SIR,

I have the honour to forward herewith copies of letters Nos. B.8861 and O.C.1340/22-23 dated the 25th February 1924 and the 12th March 1924 from the Chief Engineer of Mysore and the Deputy Commissioner, Tumkur District, respectively, requesting that an allotment of Rs.2,500/- may be placed at the disposal of the Executive Engineer, Tumkur Division, for meeting the cost of the ryots' share of contribution for the restoration of minor tanks during the current year in cases of works for which contribution has not been recovered from the ryots and to state that no special allotment has been placed at my disposal out of which the outlay could be met. The seasonal conditions continuing unfavourable, it may be found necessary to take up minor tank restoration works in respect of which ryots have not paid or are unable to pay their share of contribution on account of their distressed condition as these works will have to be started in places where tank maintenance and village Improvement works are not available for affording relief. The contribution sum will be advanced as a loan to ryots after taking suitable mutchalikas from them and recovered from them in instalments.
